

Anti-Graffiti

A Solution To Costly Vandalism, Wear And Tear

Any smooth surface exposed to public vandalism and everyday wear and tear can be easily and inexpensively protected by Anti-Graffiti. Similar in construction to a safety film product, Anti-Graffiti is a clear removable protective film, engineered to protect surfaces from spray paints, gouging and scratching. It is also shown proven effective against acid etching.

Barrier Against Damage

Once Anti-Graffiti is installed, it acts as an invisible barrier between your valuable property and malicious vandals. After an incident you don't have to worry about costly clean-up. Anti-Graffiti is easily removed and a new piece can be quickly installed. Protect your property from a vandals next target with Anti-Graffiti.

Put Anti-Graffiti to work protecting glass doors, elevators, transit shelters, bus windows, information kiosks – anywhere!

Professional Consultants & Installers

We have a network of professional consultants and installers who are experienced and can help you choose the right specialty film for your application. Discuss your needs with us today and begin enjoying a whole new level of protection for your home, office or storefront.
